DR. ROGER A. PLACE
Superintendent of Schools
October 12, 1984

Dear Mr. Powell

We appreciate your interest in our school district.

Dr. Roger A. Place
Superintendent

RAP/KK/rjh

— no substitute
teaching calls;
spend much of the
day at my desk
doing revision &
addition to the

Went into town in late afternoon & stopped at the Cpl; attended city council meeting; picked a huge bag of acorns from under the oak tree by city Hall. I use no them for Christmas decorations.

The ball has begun to roll at last. I have been "called" to CAHS to substitute for Marie Hornbeck. Again, I shall be teaching Spanish (plus Italian) and I am not really proficient in both languages. The CAHS/Hornbeck call came at about 2 P.M. on Monday afternoon as I was in my car parked on the Second Edition of R-1. I was, of the afternoon on Monday making the call. I spent the next half hour or so talking to Marie Hornbeck about the progress that I am making in that regard. The Marie Hornbeck teaching assignment was effortless. There was one class, FG period, in which there are a fair number of what can only be described as poor white trash-unbelievably common/vulgar/uncivilized/belligerent beyond belief young toughs overly made-up girls and, as Sheryl Gross said, "the boys who are arrogant who insist on being the girls' best friends and backstabs and who are contemptuous of their girlfriends." I was very nervous about this assignment because to have a well-defined schedule of being sick and absent--there are some substitutes who are at CAHS practically every day. Today I heard several members of the faculty say that it was getting to that point where they needed a day or two off, which is fine with me. When I called Marie Hornbeck after noon on Tuesday, I prepared myself for something to eat and then was all set to go to work. I called Marie Hornbeck and she told me that she had had several calls from FWM and that she was arriving at 9 P.M. on Tuesday. That whole FWM incident is so bizarre that I will give it special treatment on a separate sheet of paper. No, I will deal with it here. I received a telephone call from JVB at about 6:30 P.M. and she told me that FWM had called him at 9:10 A.M. at Allied guards and that she said at that time that FWM had called her and said he was arriving in Carbondale at 5 P.M. She telephoned and calling him at that time was arriving in Carbondale on the 9 P.M. Short Line Bus. I nearly went through the ceiling, not at JVB, but at FWM for her stupidity in thinking that she could simply push into my world and impose herself on me. I dressed and went to the Golf Course and told HRP and WSP to be prepared for a possible telephone call/visit from FWM. I also relayed the same message to RPT/WSP and family. JVB passed by at 8:30 on his motorcycle. He returned at about 9 P.M. and we both waited together. Very little talking. I made it clear to JVB that I was not mad at him for relaying such distressing news as the arrival of FWM that evening--somehow JVB was convinced that I would be mad at him for being the bearer of such distressing news. We waited and waited. At 9:30 or so, FWM descended from the bus. I was icy and frosty, in my greeting. I made it clear that I suggested that we go somewhere and drink some coffee. John followed on his Suzuki. We went to Burger King down on the highway. FWM and I had an intense 20 minute ride down during which time she made her position clear and I made a great quantity of space and time around me at the present time in order to get my life together. Itions suggested that her visit was in fact over as soon as we walked out of the station clear. At Burger King, however, she would be that. We had reached a peaceful agreement. We stood up. John shook my hand and said that the situation had been handled well. He then took his leave. FWM and I went to Scranton and checked at both bus stations--no more buses for NYC on Tuesday night. The next one was at 5:30 A.M. Before leaving JVB asked me to call him again. I told her that I would, but since I did not get home until after 4 A.M. it was not possible and we talked for two or three hours and then at about 3:30 A.M. I drove FWM to the Matz bus station. At about 5 A.M. I returned to Elkade and went to bed. At 6:30 A.M., Paul Kazmarchik telephoned and asked me to sub

In New York, and so on one hour's delay & was up and called for -- a clear man right before the Palace Sunday when I went out back. Dinner -- and, as a reward, dancing, late and high from telephone and asked if I could substitute for Geneva. I delivered my report and went into Cambridge.

Known on 10-16-1884 - p. 2 as the student of Maria Harnett. Known on 10-17-84 - p. 1 as the student of Mrs Ann Tuck.

The seventh and eighth grade students are exceedingly nonfunctioning, but advance all the same. No other students are in the next part very well behaved.
